**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer that supports broadband competition. As a consumer, I can tell that competition breeds faster advancements in technology allowing us to connect better. Competition has allowed my internet provider to force other companies to step up their services and promotes capitalism. Before I was stuck with only the option to have DSL, but now I am able to have access to fiber for cheaper price with much better service. It is un-American to discourage competition. Please take my letter into consideration when you make your decisions.
